

The TREASURE project empowers young people in local communities by enhancing their digital skills and knowledge. With a focus on adapting education and training to the demands of the digital age, this initiative has created a dynamic digital education ecosystem that nurtures e-activism skills among youth.

The engaging and user-friendly e-learning platform equips young community members with the confidence and practical tools needed to navigate the digital world effectively, making them active contributors to their communities and agents of positive change..

REGISTER TO THE E-LEARNING

Discover our accessible e-learning platform—a dynamic space designed to empower young learners and local communities. Dive into interactive modules and self-assessment features that make learning engaging and impactful. There are three powerful themes that equip you to make a meaningful impact:

- **Digital Inclusion for Community Services:** Learn to navigate essential online services like digital banking, public e-services, and healthcare resources. These skills not only make everyday life easier but also help you stay connected and informed in a rapidly digitalizing world.
- **Community Media on Green Topic:** Discover how to raise awareness about climate change, calculate your carbon footprint, and explore sustainable practices like permaculture. Use your voice to inspire environmental action and promote sustainable living in your community.
- **E-Activism for Social Inclusion:** Become a digital advocate by exploring tools that promote social justice, facilitate e-volunteering, and drive impactful social media campaigns. Learn to use your online presence for meaningful change, championing access, equity, and rights for all.

Dive into our engaging educational content, including tools for digital inclusion, community media on green topics, and e-activism for social inclusion.

MODULE 1: Tools for digital inclusion in local community services	0/9 >
MODULE 2: Tools for community media on green topics	0/9 >
MODULE 3: Tools for e-activism on social inclusion	0/9 >

Get Involved more in the module

This Treasure e-learning platform is designed to empower individuals with essential digital skills for active community participation.

Module 1 covers digital tools for inclusion in local community services, helping users navigate online banking, access public services, and explore digital health resources.

Module 2 focuses on utilizing community media to engage in green topics, fostering environmental awareness and advocacy.

Module 3 delves into e-activism techniques to promote social inclusion, providing practical strategies for impactful online engagement.

Through interactive quizzes and self-assessments, learners can deepen their understanding, apply new knowledge, and become effective digital citizens.
